Volume with Fractions

Fill the box with small cubes. 8 small cubes make 1.

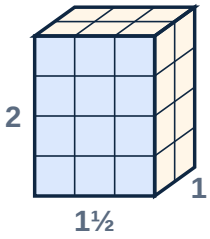

Small cubes: ½ unit on every edge

2 across, 2 back, 2 up = 8 small cubes.
Together they make 1 unit cube.

8 small cubes = 1 cubic unit

A box 1½ by 1 by 2

Small cubes: 3 × 2 × 4 = 24.
24 ÷ 8 = 3 unit cubes.

$$1\frac{1}{2} \times 1 \times 2 = 3$$

Length × width × height works with fractions too.

Your turn!

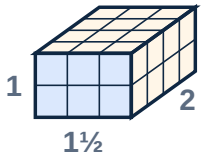

$$2\frac{1}{2} \times 2 \times 2 = \square$$

Volume with Fractions: Practice

Count small cubes, then multiply the edges.

Part 1 Count the small cubes Each small cube is ½ on every edge. 8 make 1 cubic unit.
