Back Through Ten

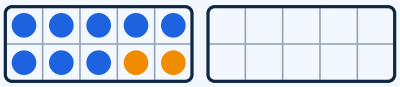

Jump to 10, then jump to the number.

1 15 to 10

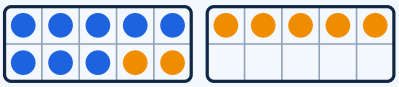

jump 5

2 10 to 8

jump 2

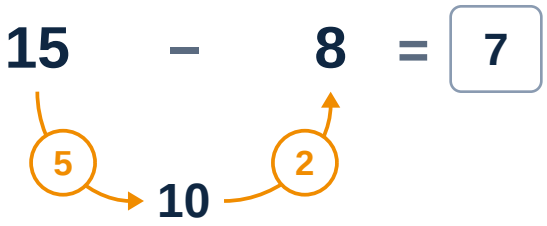

3 add the jumps

5 + 2 = 7

So 15 – 8 = 7

Write it like this

Your turn!

For teachers

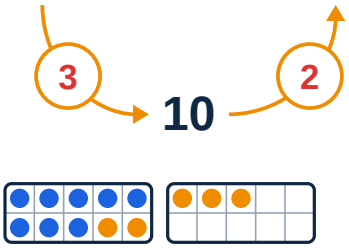

Goal: subtract across ten by finding how far apart the numbers are. For 15 – 8 say “15 to 10 is 5. 10 to 8 is 2. 5 and 2 is 7.” The second jump is the buddy of 8. Check with addition: 8 + 7 = 15.
