Number Patterns

Two rules side by side. How are the numbers related?

Start at 0. Rule A: add 3. Rule B: add 6.

Rule A: add 3	0	3	6	9	12	15
Rule B: add 6	0	6	12	18	24	30

Look down each column: 3 and 6, 6 and 12, 9 and 18.
Each B term is 2 times the A term, because 6 is 2 times 3.

Find the rule

5 9 13 17

Each number is 4 more than the one before.
The rule is: add 4.

Pairs

(3, 6) (6, 12) (9, 18)

Write each A term with its B term.
The A term comes first.

Your turn!

Start at 2, add 5: 2 7 12 17 22

For teachers

Goal: make two patterns from two rules and compare them (5.OA.3). Say “Look down the columns: how do the A and B terms compare?” Pairs get graphed in the Coordinate Grid packet.

Number Patterns: Practice

Find the rule. Keep going. Compare the two rules.

Part 1 Keep going Use the rule.

1) Start at 4, add 6: 4 10 16 **22** **28** **34**

2) Start at 3, add 7: 3 10 17 **24** **31** **38**

3) Start at 10, add 5: 10 15 20 **25** **30** **35**

4) Start at 1, add 9: 1 10 19 **28** **37** **46**

5) Start at 8, add 4: 8 12 16 **20** **24** **28**

6) Start at 5, add 11: 5 16 27 **38** **49** **60**
