Even and Odd

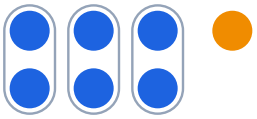

Make pairs. Is anyone left over?

Pair them up

8 is even

No one is left over.

7 is odd

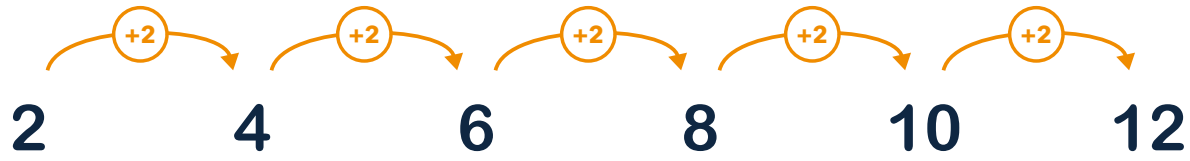

1 is left over.

Even numbers are doubles. Odd numbers are a double + 1

$4 + 4 = 8$

$3 + 3 + 1 = 7$

Count by 2s: these are the even numbers

Big number? Look only at the ones digit

ends in 0, 2, 4, 6, 8: even

ends in 1, 3, 5, 7, 9: odd

36 is even

57 is odd

Your turn!

even odd

For teachers

Goal: tell even from odd (2.OA.3). Pair real counters: no one left over means even. Even numbers are doubles (4 + 4); odd numbers are a double + 1. For big numbers, only the ones digit matters, because tens always pair up.

Even and Odd: Practice
